# SAFETY DATA SHEET

## 1. Identification

1. Identification			
Product identifier	KLONDIKE ISO 68 Way Oil		
Other means of identification			
Product code	ISO 68 Way Oil		
Recommended use	Machine Tool Lubricant		
Recommended restrictions	None known.		
Manufacturer/Importer/Supplier/	Distributor information		
Manufacturer			
Company name Address	KLONDIKE Lubricants Corporat 3078 275th Street Langley, BC V4W 3L4 Canada	ion	
Telephone Website E-mail	General Information www.klondikelubricants.com info@klondikelubricants.com	1-877-293-4691	
Emergency phone number	Chemtrec (Within US) Chemtrec (International)	1-800-424-9300 1-703-527-3887	
Supplier	Refer to Manufacturer		
2. Hazard(s) identification			
Physical hazards	This mixture does not meet the	e classification criteria according to OSHA HazCom 2012.	
Health hazards	This mixture does not meet the classification criteria according to OSHA HazCom 2012.		
Environmental hazards	This mixture does not meet the classification criteria according to OSHA HazCom 2012.		
OSHA defined hazards	This mixture does not meet the classification criteria according to OSHA HazCom 2012.		
Label elements			
Hazard symbol	None.		
Signal word	None.		
Hazard statement	The mixture does not meet the	criteria for classification.	
<b>Precautionary statement</b>			
Prevention	Observe good industrial hygier	ne practices.	
Response	Wash hands after handling.		
Storage	Store away from incompatible	materials.	
Disposal	Dispose of waste and residues	in accordance with local authority requirements.	
Hazard(s) not otherwise classified (HNOC)	No OSHA defined hazard classes. Other hazards which do not result in classification: May cause mild skin and eye irritation. May cause respiratory irritation. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. Product may present an aspiration hazard, if ingested in large amounts. Aspiration into the lungs during swallowing or subsequent vomitingmay cause chemical pneumonitis, which can be fatal.		
Supplemental information	None.		

## 3. Composition/information on ingredients

#### Mixtures

Chemical name	Common name and synonyms	CAS number	%
Distillates (petroleum), Hydrotreated Heavy Paraffinic	HEAVY BASE OILS (HEAVY PARAFFINIC HYDROTREATED DISTILLATE)	64742-54-7	30 - 60
Distillates (petroleum), Hydrotreated Light Paraffinic	Not Available	64742-55-8	30 - 60

\*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

#### 4. First-aid measures

Inhalation Skin contact

Eye contact

Ingestion

Most important symptoms/effects, acute and delayed

Indication of immediate medical attention and special treatment needed

General information

## 5. Fire-fighting measures

Suitable extinguishing media Unsuitable extinguishing

media Specific hazards arising from the chemical

Special protective equipment and precautions for firefighters

Fire-fighting equipment/instructions

Specific methods

General fire hazards

Hazardous combustion products

## 6. Accidental release measures

	6. Accidental release measures	S	
	Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Use only non-sparking tools. Avoid inhalation of vapors and spray mists. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.	
	Methods and materials for	The product is immiscible with water and will spread on the water surface.	
containment and cleaning up		Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.	
		Small Spills: Absorb in vermiculite, dry sand or earth and place into containers. Clean surface thoroughly to remove residual contamination.	
		Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.	
	Environmental precautions	Avoid discharge into drains, water courses or onto the ground.	
	7. Handling and storage		
	Precautions for safe handling	Do not handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. Do not ingest. Avoid inhalation of vapors and spray mists. Avoid contact with eyes, skin, and clothing. Use only outdoors or in a well-ventilated area. Wear appropriate personal protective equipment. Observe good industrial hygiene practices. Handle and open container with care.	
	Conditions for safe storage, including any incompatibilities	Store locked up. Keep away from heat, sparks and open flame. Store in original tightly closed container. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS).	

Move to fresh air. Call a physician if symptoms develop or persist.

Wash off with soap and water. Get medical attention if irritation develops and persists.

Rinse with water. Get medical attention if irritation develops and persists.

Call a physician or poison control center immediately. Never give anything by mouth to a victim who is unconscious or is having convulsions. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.

May be mildly irritating to skin, eyes and respiratory system. Symptoms may include redness, edema, drying, defatting and cracking of the skin. Symptoms may include stinging and tearing. Symptoms may include upper respiratory irritation, coughing, and breathing difficulties. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. Product may present an aspiration hazard, if ingested in large amounts. Aspiration into the lungs during swallowing or subsequent vomiting may cause chemical pneumonitis, which can be fatal. Treat symptomatically.

If you feel unwell, seek medical advice (show the label where possible).

Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2). Do not use water jet as an extinguisher, as this will spread the fire.

During fire, gases hazardous to health may be formed.

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Ventilate the contaminated area. As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Prevent fire extinguishing water from contaminating surface water or the ground water system.

Use standard firefighting procedures and consider the hazards of other involved materials.

No unusual fire or explosion hazards noted.

Carbon oxides. Sulphur oxides. Phosphorus oxides. Nitrogen oxides (NOx). Hydrocarbons.

# 8. Exposure controls/personal protection

## Occupational exposure limits

Components	Туре	Value	Form		
Distillates (petroleum), Hydrotreated Light Paraffinic (CAS 64742-55-8)	PEL	5 mg/m3	Mist.		
US. NIOSH: Pocket Guide to (			-		
Components	Туре	Value	Form		
Distillates (petroleum), Hydrotreated Light Paraffinic (CAS 64742-55-8)	STEL	10 mg/m3	Mist.		
	TWA	5 mg/m3	Mist.		
iological limit values	No biological exposure limits noted for the ingredient(s).				
ppropriate engineering ontrols	If exposure limits have not been established, maintain airborne levels to an acceptable level. Ventilation should be sufficient to effectively remove and prevent buildup of any dusts or fumes that may be generated during handling or thermal processing.				
ndividual protection measures, s	uch as personal protective equipment				
Eye/face protection	Wear safety glasses with side shields (o quick drench shower in the immediate		cy eye wash fountain and		
Skin protection					
Hand protection	Wear appropriate chemical resistant glo	oves. Advice should be sought f	rom glove suppliers.		
Other	Wear suitable protective clothing.				
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment. Seek advice from respiratory protection specialists.				
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.				
General hygiene onsiderations	Always observe good personal hygiene and before eating, drinking, and/or smo equipment to remove contaminants.				

# 9. Physical and chemical properties

Appearance				
Physical state	Liquid.			
Form	Liquid.			
Color	Dark amber.			
Odor	Mild petroleum odor.			
Odor threshold	Not available.			
рН	Not available.			
Melting point/freezing point	Not available.			
Initial boiling point and boiling range	280 °C (536 °F)			
Flash point	218.0 °C (424.4 °F)			
Evaporation rate	Not available.			
Flammability (solid, gas)	Not available.			
Upper/lower flammability or explos	ive limits			
Explosive limit - lower (%)	Not available.			
Explosive limit - upper (%)	Not available.			
Vapor pressure	< 0.2			
Vapor density	Not available.			
Relative density	0.87			
Solubility(ies)				
Solubility (water) Insoluble				
Material name: KLONDIKE ISO 68 Way Oil				

Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	68 cSt
Other information	
Percent volatile	Negligible
Specific gravity	0.877
10. Stability and reactivity	
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Avoid temperatures exceeding the flash point. Contact with incompatible materials. Do not use in areas without adequate ventilation.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	Carbon oxides. Phosphorus oxides. Sulfur oxides. Nitrogen oxides (NOx). Hydrocarbons.

## 11. Toxicological information

### Information on likely routes of exposure

Ingestion	Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.	
Inhalation	Inhalation of vapors/fumes generated by heating this product may cause respiratory irritation with throat discomfort, coughing or difficulty breathing.	
Skin contact	May cause mild skin irritation.	
Eye contact	May cause mild eye irritation.	
Symptoms related to the physical, chemical and toxicological characteristics	May cause mild skin and eye irritation. Symptoms may include redness, edema, drying, defatting and cracking of the skin. Symptoms may include stinging and tearing. May cause respiratory irritation. Symptoms may include upper respiratory irritation, coughing, and breathing difficulties. Ingestion may cause gastrointestinal irritation, na usea, vomiting and diarrhea. Product may present an aspiration hazard, if ingested in large amounts. Aspiration into the lungs during swallowing or subsequent vomiting may cause chemical pneumonitis, which can be fatal.	

### Information on toxicological effects

Acute toxicity	See below for individual ingredient acute toxicity data.
	see below for marriada ingreatent deute toxiety duta

Components	Species	Test Results
Distillates (petroleum), Hydrotr	reated Heavy Paraffinic (CAS 64742-54-7)	
Acute		
Dermal		
LD50	R a bbit	> 5000 mg/kg
Inhalation		
LC50	Rat	> 5 mg/l, 4 Hours (Mist)
Oral		
LD50	Rat	> 15000 mg/kg
Distillates (petroleum), Hydrotr	reated Light Paraffinic (CAS 64742-55-8)	
Acute		
Dermal		
LD50	R a bbit	> 5000 mg/kg
Inhalation		
LC50	Rat	> 4000 mg/m3, 4 hours
Oral		
LD50	Rat	> 2000 mg/kg

\* Estimates for product may be based on additional component data not shown.

Skin corrosion/irritation	May be irritating to the skin.		
Serious eye damage/eye irritation	Direct contact may cause very mild, temporary irritation and redness.		
Respiratory or skin sensitization			
<b>Respiratory sensitization</b>	This product is not expected to cause respiratory sensitization.		
Skin sensitization	Not expected	to be a skin sensitizer.	
Germ cell mutagenicity	No data availa mutagenic or	able to indicate product or any components p genotoxic.	resent at greater than 0.1% are
Carcinogenicity			
OSHA Specifically Regulated S	ubstances (29 CF	R 1910.1001-1050)	
Not listed. US. National Toxicology Progra	am (NTP) Report (	on Carcinogens	
Distillates (petroleum), Hy (CAS 64742-55-8)	/drotreated Light	t Paraffinic Known To Be Human Carcinogen.	
Reproductive toxicity	This product i	is not expected to cause reproductive or deve	lopmental effects.
Specific target organ toxicity - single exposure	Not classified	as a specific target organ toxicity-single expo	osure.
Specific target organ toxicity - repeated exposure	Not classified	as a specific target organ toxicity -repeated e	xposure.
Chronic effects	Frequent or p	prolonged contact may defat and dry the skin,	leading to discomfort and dermatitis.
Further information	This product	has no known adverse effect on human health	٦.
Aspiration toxicity	Not expected	to be hazardous by OSHA criteria.	
12. Ecological information			
Ecotoxicity		s not classified as environmentally hazardous. at large or frequent spills can have a harmful c	
Components		Species	Test Results
Distillates (petroleum), Hydrot	reated Heavy Par	raffinic (CAS 64742-54-7)

Persistence and degradability		etroleum), Hydrotreated Heavy Paraffinic is co	nsidered to be not readily
Bioaccumulative potential	No data availa	able.	
Mobility in soil	No data availa	able.	
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.		
13. Disposal considerations			
Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site.		
Local disposal regulations	Dispose in accordance with all applicable regulations.		
	•		

Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.	ž
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).	
Contaminated packaging	Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after containe emptied.	
14. Transport information		
DOT		
Not regulated as dangerous ge	pods.	
IATA		
Not regulated as dangerous g	pods.	
IMDG		
Not regulated as dangerous ge Transport in bulk according to	This substance/mixture is not intended to be transported in bulk.	
Annex II of MARPOL 73/78 and the IBC Code		
15. Regulatory information		
US federal regulations	This product is not known to be a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200. All components are on the U.S. EPA TSCA Inventory List.	
TSCA Section 12(b) Export Not	ification (40 CFR 707, Subpt. D)	
Not regulated.		
CERCLA Hazardous Substance	List (40 CFR 302.4)	
Not listed. SARA 304 Emergency release r	octification
