1. Identification

Product identifier: KLONDIKE Ultra Tac EP-00 Synthetic Blend Grease
Other means of identification:
- Ultra Tac EP-00 Syn Blend
Product code: Multi-purpose grease
Recommended use: No restrictions on use known.
Recommended restrictions: No restrictions on use known.
Chemical family: Petroleum hydrocarbon
Manufacturer: KLONDIKE Lubricants Corporation
3078 275th Street
Langley, BC, Canada
V4W 3L4
General Information: 1-877-293-4691
Chemtrec (Within US): 1-800-424-9300
Chemtrec (International): 1-703-527-3887
Supplier information: Refer to Manufacturer

2. Hazard(s) Identification

This material is not classified as hazardous under U.S. OSHA regulations (29CFR 1910.1200) (Hazcom 2012) and Canadian WHMIS regulations (Hazardous Products Regulations) (WHMIS 2015).

Physical hazards: Not classified for physical hazards.
Health hazards: Not classified for health hazards.
Environmental hazards: Not currently regulated by Hazcom 2012 or WHMIS 2015. Consult section 12 for details.
OSHA defined hazards: No OSHA defined hazard classes.
Label elements: None required according to OSHA Hazcom 2012.
Signal Word: None.

Hazard statement(s): The mixture does not meet the criteria for classification.

Precautionary statement(s)
Prevention: None required.
Response: None required.
Storage: None required.
Disposal: None required.

Hazard(s) not otherwise Classified (HNOC): Other hazards which do not result in classification: Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. Contact with eyes or skin may cause mild irritation.
Supplemental Information: None reported by the manufacturer.

Material name: KLONDIKE Ultra Tac EP-00 Synthetic Blend Grease
Version #: 1  Issue date: 07-18-2016

4. First-aid measures

Inhalation: If breathing is difficult, trained personnel should give oxygen. If breathing stops, provide artificial respiration. Call a POISON CENTER or doctor/physician if you feel unwell.

Skin contact: For skin contact, flush with water for at least 15 minutes, while removing contaminated clothing. If skin irritation occurs, get medical advice/attention.

Eye contact: Any material that contacts the eye should be washed out immediately with water. If easy to do, remove contact lenses. Get medical attention if symptoms persist.

Ingestion: Do NOT induce vomiting. Rinse mouth. If irritation or symptoms develop, seek medical attention.

Most important symptoms and effects, both acute and delayed: May be mildly irritating to skin, eyes and respiratory system. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

Indication of any immediate medical attention and special treatment needed: Treat symptomatically.

General Information: None reported by the manufacturer.

5. Fire-fighting measures

Unsuitable extinguishing media: Do not use water jet as extinguisher, as this will spread the fire.

Special hazards arising from the chemical: Thermal decomposition or combustion may liberate toxic gases or fumes.

Special protective equipment and precautions for fire-fighters: Firefighters should wear an approved full-face, self-contained breathing apparatus (SCBA) and impervious clothing. Use water spray to cool unopened containers.

Fire-fighting equipment/instructions: Avoid release to the environment.

Specific methods: No unusual fire or explosion hazards noted.

General fire hazards: Carbon oxides. Nitrogen oxides (NOx).
SAFETY DATA SHEET

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures
Keep unnecessary personnel away. Wear appropriate personal protective equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up
Remove all sources of ignition. Ventilate area of release. Stop the spill at source if it is safe to do so. Contain and absorb spilled liquid with non-combustible, inert absorbent material (e.g. sand), then place absorbent material into a container for later disposal (see Section 13).

Environmental precautions
Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling
When using, do not eat, drink or smoke. Wear appropriate personal protective equipment. Use only with adequate ventilation. Wash thoroughly after handling.

Conditions for safe storage, including any incompatibilities
Keep container tightly closed. Keep cool. Store away from incompatible materials.

8. Exposure controls/personal protection

Occupational exposure limits

Appropriate engineering controls
Ensure adequate ventilation, especially in confined areas.

Individual protection measures, such as personal protective equipment

Eye / face protection
Wear safety glasses with side shields (or goggles).

Skin protection
Chemical resistant gloves recommended.

Hand protection
Wear chemical-resistant gloves, footwear, and protective clothing appropriate for the risk of exposure. Contact health or safety professional or manufacturer for specific information.

Other

Respiratory protection
Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fume at levels exceeding the exposure limits.

Thermal hazards
Not available.
SAFETY DATA SHEET

General hygiene considerations
Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties
Appearance
- Physical state: Semi-solid.
- Form: Semi-solid; oily
- Color: red
- Odor: Mild petroleum odour.
- Odor threshold: Not available.
- pH: Not available.
- Melting point / freezing point: Not available.
Initial boiling point and boiling range
- >300°C (572°F)
Flash point
- >200°C
- Cleveland closed cup
Evaporation rate
- Not available.
Flammability (solid, gas)
- Not applicable.
- Lower flammability/explosive limit: Not available.
- Upper flammability/explosive limit: Not available.
Vapour pressure
- >1 (Air = 1)
Vapour density
- 0.91
Solubility(ies)
- Solubility (water): Soluble
- Other solubility(ies): Not available.
Partition coefficient (n-octanol/water)
- Not available.
Auto-ignition temperature
- Not available.
Decomposition temperature
- Not available.
Viscosity
- 160
Other information
- Explosive properties: Not explosive
- Oxidizing properties: Not available.
- Specific gravity: 0.91
- Critical temperature: Not available.
- VOC: Not available.
- Volatilities %: Nil
- Flame projection length: Not available.
- Flashback observed: Not available.
- Absolute pressure of container: Not available.
- Other physical/chemical data: None known or reported by the manufacturer.

10. Stability and reactivity
Reactivity
The product is stable and non-reactive under normal conditions of use, storage and transport.

Chemical stability
Stable under normal conditions.

Possibility of hazardous reactions
Hazardous polymerization does not occur.

Conditions to avoid
High temperatures, flame, sparks, high humidity, light, water, and moisture.

Incompatible materials
Oxidizing agents
Carbon oxides.
Nitrogen oxides (NOx).

11. Toxicological information

Information on likely routes of exposure

<table>
<thead>
<tr>
<th>Routes of entry</th>

Skin Corrosion/Irritation
May cause mild skin irritation.

Serious eye damage/Irritation
May cause mild eye irritation.

Respiratory or skin sensitization
Not expected to be a skin or respiratory sensitizer.

Germ cell mutagenicity
Not expected to be mutagenic.

Carcinogenicity
No components are listed as carcinogens by ACGIH, IARC, OSHA or NTP.

Reproductive toxicity
This product is not expected to cause reproductive effects.

Specific target organ toxicity - single exposure
Not classified as a specific target organ toxicity-single exposure.

Specific target organ toxicity - repeated exposure
Not classified as specific target organ toxicity-repeated exposure.

Chronic effects
Prolonged or repeated skin contact may cause defatting and drying resulting in irritation and possible dermatitis.

Aspiration toxicity
Not expected to be an aspiration hazard.

Further information
None reported by the manufacturer.

12. Ecological information
The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

### Mobility in soil

Not available.

### Other adverse effects

No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

## 13. Disposal consideration

### Disposal instructions

Collect and reclaim or dispose in sealed containers at licensed waste disposal site.

### Local disposal regulations

Dispose in accordance with all applicable regulations.

### Hazardous waste code

The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.

### Distillates (petroleum), hydrotreated heavy naphthenic

N/Av

### Waste from residues / unused products

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

### Contaminated packaging

Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied.

## 14. Transport information

### 49CFR/DOT

Not regulated as dangerous goods

### ICAO/IATA

Not regulated as dangerous goods

### IMDG

Not regulated as dangerous goods

### TDG

Not regulated as dangerous goods

### General information

Keep away from heat, sparks and open flame. - No smoking.

### Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not established.
SAFETY DATA SHEET

15. Regulatory information

US Federal Information: This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200. All components are on the U.S. EPA TSCA Inventory list.
