KLONDIKE Heavy Duty ATF Full Synthetic Transmission Fluid

1 Identification			
Product Identifier:	KLONDIKE Heavy Duty ATF Full Synthetic Transmission Fluid		
Stock Number:			
Other means of identification:	No data available		
Synonyms:			
Recommended use and restrictions on	use: Automatic Transmission Fluid		
Recommended use:	Uses other than those described above		
Restrictions on use:	KLONDIKE Lubricants Corporation		
Initial Supplier Identifier:	3078 275th Street		
	Langley, BC, V4W 3L4		
	Canada		
	General information 1-877-293-4691		
Tel No.:	info@klondikelubricants.com		
Email:	Chemtrec (Within US) 1-800-424-9300 Chemtrec		
Emergency telephone number and any	(International) 1-703-527-3887

classified

Health hazards not otherwise classified None known.

Chemical Name	Common name and synonyms	CAS registry number and any unique identifiers	Concentration
Long chain alkyl amine thiophosphate	No data available	ACC # 251617	0.1 - 1
Petroleum distillates, hydrotreated light naphthenic	No data available	64742-53-6	0.1 - 1
Petroleum distillates, solvent dewaxed heavy paraffinic	No data available	64742-65-0	1 - 5
Lubricating oils (petroleum), C15-30, hydrotreated neutral oil-based	No data available	72623-86-0	5 - 10
Petroleum distillates, hydrotreated heavy paraffinic	No data available	64742-54-7	60 - 80

4 First-aid measures	
Inhalation:	Remove to fresh air. If breathing is difficult, have a trained individual administer oxygen.
Eye contact:	Use eye wash to remove a chemical from the eye. Flush the affected eye for at least fifteen minutes. Tilt the head to prevent chemical from transferring to the uncontaminated eye. Seek medical attention if irritation persists.
Skin Contact:	Wash with soap and water. Get medical attention if irritation develops or persists.
Ingestion:	No hazard in normal industrial use. Do not induce vomiting. Seek medical attention if symptoms develop. Provide medical care provider with this SDS.
The most important symptoms and effects, whether acute or delayed:	May cause an allergic skin reaction
An indication of immediate medical attention and special treatment needed, if necessary:	Specific treatment (see on this label).

5 Fire-fighting measures

Date of the latest revision of the safety data sheet:07-10-2019Supercedes:15-08-2019

Suitable extinguishing media: Unsuitable extinguishing media:	Use alcohol resistant foam, carbon dioxide, or dry chemical when fighting fires. Water or foam may cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied to the surface of the fire. Do not direct a stream of water into the hot burning liquid. No data available
Specific hazards arising from the hazardous product, such as the nature of any hazardous combustion:	Material may be ignited only if preheated to temperatures above the high flash point, for example in a fire.
Hazardous Combustion Products:	Carbon monoxide, Sulfur containing gases, Nitrogen containing gases, oxides of phosphorus, Hydrogen sulfide
Special protective equipment and precautions for firefighters:	Do not enter fire area without proper protection including self- contained breathing apparatus and full protective equipment. Use methods for the surrounding fire.
6 Accidental release measures	
Personal precautions, protective	No health affects expected from the clean up of this material if contact
equipment and emergency procedures:	can be avoided. Follow personal protective equipment recommendations found in Section 8 of this SDS.
Methods and materials for containment and cleaning up:	Prevent the spread of any spill to minimize harm to human health and the environment if safe to do so. Wear complete and proper personal

the environment if safe to do so. Wear complete and proper personal protective equipment following the recommendation of Section 8 at a minimum. Dike with suitable absorbent material like granulated clay. Dispose of according to Federal, State, Local, or Provincial regulations. Used fluid should be disposed of at a recycling center.

7 Handling and storage		
Precautions for safe handling:	Mildly irritating material. Avoid unnecessary exposure.	
Conditions for safe storage:	Store in a cool dry place. Isolate from incompatible materials.	
Materials to Avoid/Chemical	Strong oxidizing agents	
Incompatibility:

Skin Protection: Hand protection:	contact with eyes. Where use can result in skin contact, practice good personal hygiene and wear impervious gloves. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work. Neoprene, Nitrile
General hygiene conditions:	Contaminated work clothing must not be allowed out of the workplace. Wear protective gloves/protective clothing/eye protection/face protection.

Physical and chemical properties	
Physical state:	Liquid
Colour:	Red
Odour:	Mild
Odour threshold:	Not determined
pH:	No data available
Melting point (°C):	No data available
Freezing point (°C):	No data available
Initial boiling point and boiling range	No data available
(°C):	221
Flash point (°C):	221 Na data available
Evaporation rate:	No data available
Flammability, in the case of solids and	No data available
gases:	
Upper flammable or explosive limit, %	Not established
in air:	
Lower flammable or explosive limit, %	Not established
in air:	
Vapour pressure:	No data available
Vapour density:	No data available
Relative density:	0.84
Solubility:	Negligible; 0-1%
Partition coefficient — n-	No data available

Viscosity:	31.93
10 Stability and reactivity	
Reactivity:	There are no known reactivity hazards associated with this product.
Chemical stability:	Stable under normal conditions.

No data available

Not determined

Date of the latest revision of the safety data sheet:07-10-2019Supercedes:15-08-2019

Possibility of hazardous reactions:	None expected under standard conditions of storage.				
Conditions to avoid, including static	Temperatures above the high flash point of this combustible material in combination with sparks, open flames, or other sources of ignition. Moisture (will lead to product performance degradation).				
discharge, shock or vibration:					
Incompatible materials:	Strong oxidizing agents				
Hazardous decomposition products:					
Hazardous decomposition products:	Carbon monoxide Sulfur containing gases Nitrogen containing gases				
	oxides of phosphorus Hydrogen sulfide				
11 Toxicological information					
Information on the likely routes of	Eye contact, Ingestion, Inhalation, Skin contact				
exposure (inhalation, ingestion, skin					
and eye contact):					
Symptoms related to the physical,	May cause an allergic skin reaction				
chemical and toxicological					
characteristics:					
Immediate effects from short term exp	osure:				
Inhalation:	No hazard in normal industrial use.				
Skin Contact:	This material is likely to be slightly irritating to skin based on animal data				
	Can cause minor skin irritation, defatting, and dermatitis.				
Eye Contact:	This material is likely to be non-irritating to eyes based on animal data.				
Ingestion:	Estimated to be > 5.0 g/kg. No hazard in normal industrial use.				
Delayed and chronic effects from long	term exposure:				
Carcinogenicity:	Not expected to cause cancer. This product meets the IP-346 criteria of				
	<3% PAH's and is not considered a carcinogen by the International				
	Agency for Research on Cancer.				
Reproductive and Developmental	Not known or reported to cause reproductive or developmental toxicity				
Toxicity:					
Mutagenicity:	No data available to indicate product or any components present at				
	greater than 0.1% is mutagenic or genotoxic.				
Skin Contact:	Upon prolonged or repeated contact, can cause minor skin irritation,				
	defatting, and dermatitis.				
Skin Absorption:	Upon prolonged or repeated exposure, no hazard in normal industrial				
	use.				
STOT-single exposure:	Based on available data, the classification criteria are not met.				
STOT Single exposure.					
STOT-repeated exposure:	Based on available data, the classification criteria are not met.				

Numerical measures of toxicity, including ATEs Based on available data, the classification criteria are not met.

Date of the latest revision of the safety data sheet:07-10-2019Supercedes:15-08-2019

12 Ecological information

Ecotoxicity (aquatic and terrestrial, if available):

Slight ecological hazard. In high concentrations, this product may be dangerous to plants and/or wildlife.

Ecological Toxicity Data:

Chemical Name	CAS registry	Aquatic EC50	Aquatic ERC50	Aquatic LC50 Fish
	number and any unique identifiers	Crustacea	Algae	
Long chain alkyl amine thiophosphate	ACC # 251617	No data available	22	No data available
Petroleum distillates, hydrotreated light naphthenic	64742-53-6	Aquatic EC50 (48h) Daphnia > 1000 mg/L	No data available	Aquatic LC50 (96h) Rainbow Trout > 5000 mg/L
Petroleum distillates, solvent dewaxed heavy paraffinic	64742-65-0	Aquatic EC50 (48h) Daphnia > 1000 mg/L	No data available	Aquatic LC50 (96h) Rainbow Trout > 5000 mg/L
Lubricating oils (petroleum), C15-30, hydrotreated neutral oil- based	72623-86-0	Aquatic EC50 (48h) Daphnia > 1000 mg/L	No data available	Aquatic LC50 (96h) Rainbow Trout > 5000 mg/L
Petroleum distillates, hydrotreated heavy paraffinic	64742-54-7	Aquatic EC50 (48h) Daphnia > 1000 mg/L	No data available	Aquatic LC50 (96h) Rainbow Trout > 5000 mg/L

Persistence and degradability:	Biodegrades slowly.
Bioaccumulative potential:	Bioconcentration may occur.
Mobility in soil:	This material is expected to have essentially no mobility in soil. It absorbs
	strongly to most soil types.
Other adverse effects:	None known.

13 Disposal considerations

Information on safe handling for disposal and methods of disposal, including any contaminated packaging: Spent or discarded material is non-hazardous according to environmental regulations.

14 Transport	information
--------------	-------------

Transportation of Dangerous Goods by land (TDG):
