82 NEW PERFORMANCE-DRIVEN LUBRICANTS

DRIVING YOUR BUSINESS GROWTH 2021

82 NEW PERFORMANCE-DRIVEN LUBRICANTS

HIGH MILEAGE ENGINE OILS

HIGH MILEAGE
120000+ km

5W-20 API SP/GF-6A SYNTHETIC BLEND HIGH MILEAGE

5W-20 API SP/GF-6A Synthetic Blend High Mileage Engine Oil is designed to help extend engine life and provide enhanced protection and performance in engines with 120,000 kms or greater. This oil delivers exceptional resistance to shear induced viscosity breakdown, has outstanding low temperature fluidity, and resists engine component wear and deposit formation under the most severe driving conditions.

KLONDIKE Synthetic Blend High Mileage Engine Oils meet or exceed new car warranty requirements for North American, Asian, and European vehicles where API SP/ ILSAC GF-6 is referenced.

5W-30 API SP/GF-6A SYNTHETIC BLEND HIGH MILEAGE

5W-30 API SP/GF-6A Synthetic Blend High Mileage Engine Oils is designed to help extend engine life and provide enhanced protection and performance in engines with 120,000 kms or greater. This oil delivers exceptional resistance to shear induced viscosity breakdown, has outstanding low temperature fluidity, and resists engine component wear and deposit formation under the most severe driving conditions.

KLONDIKE Synthetic Blend High Mileage Engine Oils meet or exceed new car warranty requirements for North American, Asian, and European vehicles where API SP/ ILSAC GF-6 is referenced.

FOOD-GRADE LUBRICANTS

FOOD-GRADE AW 32 HYDRAULIC FLUID

FOOD-GRADE AW 32 Hydraulic Fluid is designed specifically for use in food processing equipment. This high-quality food grade fluid provides maximum food safety and provides excellent protection against wear, ensuring long service life in the most demanding operating conditions.

KLONDIKE FOOD-GRADE Hydraulic Fluids are NSF H1 registered for incidental food contact. Recommended for industrial and mobile hydraulic equipment used in food processing equipment.

FOOD-GRADE AW 46 HYDRAULIC FLUID

FOOD-GRADE AW 46 Hydraulic Fluid is designed specifically for use in food processing equipment. This high-quality food grade fluid provides maximum food safety and provides excellent protection against wear, ensuring long service life in the most demanding operating conditions.

KLONDIKE FOOD-GRADE Hydraulic Fluids are NSF H1 registered for incidental food contact. Recommended for industrial and mobile hydraulic equipment used in food processing equipment.

FOOD-GRADE EP-2 GREASE

FOOD-GRADE EP-2 Grease is a specially formulated NSF H1 registered product for use in production facilities where incidental food contact may occur. This advanced grease is designed to offer lubricating performance on equipment used in food processing equipment and other potentially sensitive areas.

Typical industries where this advanced technology is ideal for use include marine, agriculture, food processing, breweries, canneries, bakeries, beverage packaging, meat packing plants and raw materials production operations.

82 NEW PERFORMANCE-DRIVEN LUBRICANTS

ANTIFREEZE / COOLANTS

GREEN UNIVERSAL ANTIFREEZE – CONCENTRATE, 50/50 READY TO USE

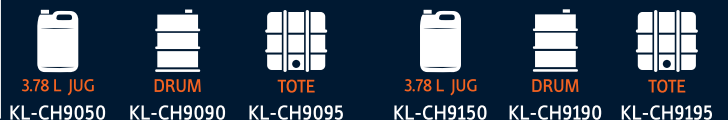

Green Universal Antifreeze/Coolant is a low silicate, virgin ethylene glycol based multi-purpose traditional coolant, designed for use in automotive engines as well as heavy-duty diesel engines where low silicate formula with the addition of SCAs is preferred.

Green Universal Antifreeze/Coolant is available in concentrate and 50/50 prediluted versions for convenience and versatility.

YELLOW AUTOMOTIVE OAT ELC ANTIFREEZE – CONCENTRATE, 50/50 READY TO USE

Yellow Automotive OAT ELC Antifreeze/ Coolant is an advanced, virgin ethylene glycol based, multi-purpose, extended life coolant designed for use in all automotive and light duty truck engine applications requiring OAT based extended life coolant.

Yellow Automotive OAT ELC Antifreeze/Coolant is available in concentrate and 50/50 prediluted versions for convenience and versatility.

ANTIFREEZE / COOLANTS

RED HEAVY DUTY NOAT ELC ANTIFREEZE – CONCENTRATE, 50/50 READY TO USE

Red Heavy Duty NOAT ELC Antifreeze/Coolant is an advanced, virgin ethylene glycol based, multipurpose, extended life coolant primarily designed for use in heavy duty diesel engines demanding extended life performance.

Red Heavy Duty NOAT ELC Antifreeze/Coolant is available in concentrate and 50/50 prediluted versions for convenience and versatility.

GOLD ALL ENGINES NF OAT ELC ANTIFREEZE – CONCENTRATE, 50/50 READY TO USE

Gold All Engines NF OAT ELC Antifreeze/ Coolant is highly advanced, virgin ethylene glycol based; multi-purpose, extended life coolant designed for use in ALL heavy and light duty engine applications regardless of year, make, model, or original antifreeze color. This nitrite free, OAT (organic acid technology) formulation is also phosphate, silicate, borate, and amine free, offers outstanding service life, and designed for use in all engine types.

Gold All Engines NF OAT ELC Antifreeze/Coolant is available in concentrate and 50/50 prediluted versions for convenience and versatility.

SYNTHETIC BRAKE FLUIDS

DOT 3 SYNTHETIC BRAKE FLUID

DOT 3 Synthetic Brake Fluid is designed for hydraulically actuated brake and clutch systems in passenger cars, light trucks and other motor vehicles where the use of brake fluid meeting DOT 3 is specified.

500 mL Bottle
KL-CH1034

1 L Bottle
KL-CH1040

EZE-BOX
KL-CH1082

DOT 4 HIGH PERFORMANCE SYNTHETIC BRAKE FLUID

DOT 4 High Performance Synthetic Brake Fluid is a premium fluid exceeding global requirements for performance and safety. For use in all disc and drum hydraulically actuated brake systems, including ABS, in passenger cars, light trucks, and other motor vehicles where the use of brake fluid meeting DOT 4 is specified.

DOT 4 fluid can replace and/or supersede any application where DOT 3 fluid is specified.

500 mL Bottle
KL-CH1234

1 L Bottle
KL-CH1240

DOT 5.1 UNIVERSAL SYNTHETIC BRAKE FLUID

DOT 5.1 Universal Synthetic Brake Fluid is designed for hydraulically actuated brake and clutch systems where the use of DOT 3, DOT 4, DOT 4 LV, DOT 5.1, DOT 5.1 LV, or DOT 5 EHV is specified.

Target users include the latest generation full electric and electric hybrid vehicles where low conductivity is essential, as well as high performance European vehicles.

EUROPEAN FULL SYNTHETIC ENGINE OILS

SAE 0W-20 EURO FULL SYNTHETIC ENGINE OIL

SAE 0W-20 Euro Full Synthetic Engine Oil is formulated and specifically recommended for the lubrication of modern European gasoline and diesel engines including TDI and common rail turbo diesel designs. Specifications where KLONDIKE SAE 0W-20 Euro Full Synthetic Engine Oil is recommended for use includes (but not limited to):

- ACEA A1/B1
- ACEA C5
- API SP
- Porsche C20
- VW 508.00/509.00
- VW TL 52577

SAE 5W-30 EURO LOW SAPS FULL SYNTHETIC ENGINE OIL

SAE 5W-30 Euro Low SAPS Full Synthetic Engine Oil is recommended for use in (but not limited to):

- ACEA: C3
- API: SP
- BMW: Longlife-04
- MB: 229.31
- MB: 229.51
- Opel: OV0401547
- Porsche: C30
- VW: 504.00
- VW: 507.00

SAE 5W-30 EURO MID SAPS FULL SYNTHETIC ENGINE OIL

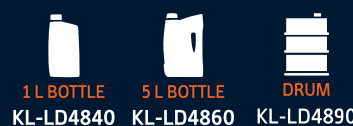

SAE 5W-30 Euro Mid SAPS Full Synthetic Engine Oil is recommended for use in (but not limited to):

- ACEA: C3
- API: SP
- BMW: Longlife-04
- MB: 229.52
- MB: 229.51
- GM dexos2™
- VW: 502.00
- VW: 505.00
- VW: 505.01

SAE 5W-40 EURO MID SAPS FULL SYNTHETIC ENGINE OIL

SAE 5W-40 Euro Mid SAPS Full Synthetic Engine Oil is recommended for use in (but not limited to):

- ACEA: C3
- API: SN/CF
- BMW: LONGLIFE-04
- FORD: WSS-M2C917-A
- MB: 226.5
- MB: 229.31
- MB: 229.51
- GM dexos2™
- PORSCHE: A40
- RENAULT: RN 0700
- RENAULT: RN 0710
- VW: 502.00
- VW: 505.00
- VW: 505.01
- FIAT: 9.55535-S2

2021 NEW PRODUCTS

SAE 75W-80 GL-4 SYNCHROMESH FULL SYNTHETIC MANUAL TRANSMISSION FLUID

SAE 75W-80 GL-4 Synchronesh Full Synthetic Manual Transmission Fluid is a high-performance synthetic lubricant designed for smooth shift performance and the protection of synchronizers and other yellow metal components found in manual transmissions, transaxles, and gearboxes.

It meets OEM specifications and the performance requirements of API GL-4. Specially engineered to exceed the demands of cars and light trucks and will ensure smooth, precise shifting and advanced anti-wear protection for extended transmission performance and long service life.

1 L BOTTLE
KL-TF1640

DUAL CLUTCH TRANSMISSION FLUID

Full Synthetic Dual Clutch (DCT) Transmission Fluid is designed for passenger cars using dual clutch transmissions. The technically advanced synthetic chemistry is optimized for precise shift quality, anti-wear protection, and long service life.

This is a truly universal DCT fluid ideal for global application.

1 L BOTTLE
KL-TF3540

SAE 80W-90 COMMERCIAL GEAR LUBRICANT

SAE 80W-90 Commercial Gear Lubricant is a high-performance product designed for use in hypoid differentials, gear boxes, and axle lubrication where API GL-5 performance is required.

Designed for use in differentials utilizing spiral, bevel, or hypoid gear sets, manual transmissions, power take off units, and final drives found on passenger cars, trucks, and off-highway vehicles used in construction, farm, forestry, and mining operations.

nano CALCIUM SULFONATE EP-2 GREASE

nano Calcium Sulfonate EP-2 Grease offers outstanding extreme pressure properties, corrosion and oxidation protection, and stable performance in applications exposed to high levels of moisture. Proprietary IF-WS₂ nanotechnology creates an unparalleled protective nanoparticle layer on load bearing surfaces for reduced friction, heat, and metallic wear while increasing operating efficiency.

This high performance grease is great for mixed fleets operating in wet conditions or looking for a grease that can cover multiple applications.

2021 NEW PRODUCTS

POWER STEERING FLUID

Power Steering Fluid is used in the protection of power steering systems in automobiles, trucks, and heavy equipment using a fluid of this type.

It is specially formulated for many foreign and domestic vehicles.

10W HEAVY DUTY AW

SAE 10W Heavy Duty Hydraulic Oil is a high-performance fluid formulated specifically for heavy equipment requiring high zinc content hydraulic fluid.

Recommended for use in machinery manufactured by Caterpillar. Advanced detergent based additive technology uses unique high zinc content and meets performance requirements for heavy duty hydraulic systems specifying SAE 10W viscosity grade. (CAT HYDO Advanced 10)

ISO 46 FULL SYNTHETIC COMPRESSOR OIL

ISO 46 Full Synthetic Compressor Oil ensures high-performance and protection for industrial rotary screw air compressors requiring ISO 46 synthetic lubricant.

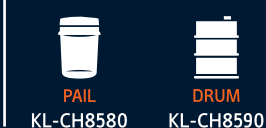

Used to lubricate and cool rotary screw compressors that handle air and other inert gases such as nitrogen, argon, carbon dioxide, carbon monoxide, helium etc. Compatible with most mineral and synthetic formulations and can be used as a top-up or complete replacement fluid.

PARTS WASHER SOLVENT

Parts Washer Solvent is a high quality, general purpose solvent intended for use as a parts washing solution. It has a Low odor and is safe to use on most materials including plastic.

Ideal for parts washer machines or application by hand or by hand-held sprayer.

82 NEW PERFORMANCE-DRIVEN LUBRICANTS

EZE-KEG

**EASY ON YOUR WALLET. EASY ON YOUR BACK.
Save EHC fees with KLONDIKE EZE-KEG.**

KLONDIKE EZE-KEG is a new 52L keg which allows for cost savings from EHC fees. Lighter than the competitive keg products, it is also easier to move around. With an easy-to-pour valve and a convenient handle, EZE-KEG makes an oil change fast and efficient.

**Purchase 6 EZE-KEGS (minimum of 3 synthetic)
and get 1 stand and 2 jugs free.**

- E**ffective, maneuverable and space-saving design
- Z**ero product contamination
- E**fficient and inventory optimizing size
