

KLONDIKE Rust Blast Penetrating Lubricant

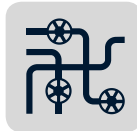

PRODUCT DESCRIPTION

KLONDIKE Rust Blast is a professional, foamy penetrating lubricant. Designed to stay where it is sprayed to penetrate and loosen rusted and corroded parts and fittings. Premium lubricating oils stop squeaks and will displace moisture for long lasting protection.

APPLICATIONS

KLONDIKE Rust Blast is a premium, professional, penetrating lubricant formulation designed for use in all kinds of industries and applications. This foamy penetrating lubricant may be used on all kinds of metal parts, threaded fittings, hinges, simple bearings, bushings and chains. Advanced, foaming penetrant stays in place on surfaces long enough to creep through rust and corrosion to loosen tough, stuck parts.

Professional formulation has many uses in the automotive, heavy duty trucks, off-road equipment, agricultural, mining, exploration, and commercial industries.

FEATURES AND BENEFITS

KLONDIKE Rust Blast is a professional foamy penetrating lubricant formulated with premium penetrating chemistry and advanced lubricating oils. These advanced components ensure efficient performance and professional results. Foaming action stays in place on surfaces to allow the active ingredients to penetrate under and through corrosion, rust, and oxidation to loosen nuts and bolts, while lubricating and protecting the metal surfaces from future corrosive attack.

KLONDIKE Rust Blast Penetrating Lubricant delivers value through the following benefits:

- **Foaming action** – sticks to vertical and overhead surfaces to allow penetrating action.
- **Professional formulation** – works quickly to improve work place efficiency.
- **Multi-use product** – safe for use on all types of surfaces. To loosen stuck parts, lubricate surfaces, prevent corrosion, stop squeaks.

KLONDIKE Rust Blast Penetrating Lubricant

HEALTH AND SAFETY

This product is not expected to have adverse health implications when used for its intended application.
